 SUBJECT: Chief, SR  
 REDWOOD/INT-PROVE/AEOLIGMA  
 ARDONA Financial and Other Administrative Matters

ACTION REQUIRED - RECD/ADRCED

See Below

Reference: EC/4 58127, 19 March 1962.

1. In accordance with the Station's request, we have reviewed Headquarters files on the financial arrangements made with AEOIGMA/1 from the inception of the contract with the agent. In 1949, 1950 and part of 1951, AEOIGMA/1 was paid in cashables such as meat, coffee, sugar and cigarettes. In April 1951 he was officially accepted as one of the Station's paid agents. He was recontacted in February 1950 and was given a "salary" of 6 cartons of cigarettes a month, retroactive to 1 January 1950. In July 1950 this allotment was doubled and he received 12 cartons of cigarettes monthly which he was, of course, selling on the open market. In April 1951, Munich requested authorization to place AEOIGMA/1 on agent status with a monthly salary of \$50 US, plus the usual personal ration of cigarettes and coffee. The request was approved by Headquarters and the payments were to be made retroactive to 1 January 1951.

2. The first mention of an escrow account for Subject was set out in the Memorandum of Oral Agreement, effective 1 January 1952, which provided that an account was to be opened in the United States in Subject's name, with deposits of \$100 monthly, as part of Subject's salary. In November 1952 Munich requested authority to give AEOIGMA/1 \$600 FPC for the travel expenses of his wife who was to visit her father and brother in Canada. This advance was deducted from AEOIGMA/1's dollar credit in the U.S., leaving a balance at the end of 1952 of \$600, as set out in the attachment to DINA-11262. We have provided this rather complete description of the early financial arrangements with AEOIGMA/1 for the Station's use in combatting any arguments he may give you on the subject.

3. We regret that we now have to present you with what may be another problem in this case. In reviewing the files during the termination process here at Headquarters, it was discovered that we

have no information on the disposition of certain equipment which was loaned to AEDOGNA/1 for his operational use. According to ECMA-39155 of 15 December 1958, this included a Unilop reproduction machine, a typewriter, Minox camera and some [redacted] research nature. Accountings were to be transferred to [redacted]. Headquarters files contained some charge out slips dated 1954, signed in pseudonym by AEDOGNA/1 for this equipment, which were apparently sent to Headquarters in error and are being returned to HQB under separate cover. We would appreciate your making an effort to secure the return of the equipment or, at the least, advice on its final disposition.
